### CONSUL'S HOLIDAY

#### Dr. Hellenthal To Revisit Germany

Dr. Walter Hellenthal, Consul for Germany in New Zealand, has been given several months home leave and he will board the German liner *Reliance* when she calls at Wellington in the course of a world tour. Dr. Hellenthal stated yesterday that he will be leaving with his family for Germany on April 17. He will travel by way of America.

Asked whether he knew when he would be returning or whether he would be relieved during his absence, Dr. Hellenthal said that he did not know. He had been on consular service in Australia and New Zealand for four years and his return home, he stated, would be in the nature of a holiday.
